# AQUARIA

J. W. Fiske Architectural Metals Inc.
111-117 Pennsylvania Ave. — Paterson, N. J.
ESTABLISHED 1858

# *Foreword*

RECOGNIZED as the oldest and most extensive manufacturers of Aquaria in the United States, we have accumulated over the past 73 years a large variety of stock designs which have won great popularity. Our experience in this specialized field has prescribed standards of design which in our honest opinion should be demanded by all prospective purchasers of aquaria.

In addition to the Aquaria illustrated in this catalogue we are prepared to fulfill any special requirements of design or construction.

First quality double thick glass is furnished by us with all aquaria unless specifications state otherwise. Specially prepared water-proof cement is furnished by us for glazing.

So as to prevent leakage resultant from vibrations caused in transportation, some of the larger aquaria are shipped unglazed with necessary glass and water-proof cement separate. For reglazing purposes we are in a position to furnish this water-proof Cement in one pound cans or in bulk. The iron work is thoroughly painted and finished in copper bronzed or verde antique as desired.

The Aquaria with fountain attachments are furnished with our No. 62 Aquaria Jet instead of the ornamental jets as illustrated. Ornamental jets can be furnished at an additional cost. These are illustrated in a separate catalogue.

We do not include the flower pots or stocking of Aquaria. Prices shown include boxing, f.o.b. cars New York City.
